Ethical Issues in Living Donor Transplantation, Ranging from Kidneys to Uteri

When:
Tuesday, September 25, 2018
3-4pm ET / 12pm-1pm PT

Speaker(s):
Kevin Reid, DMD, MS, MA
Chair of the Transplant Ethics Advisory Board
Mayo Clinic Rochester
Rochester, MN

Purpose:
When considering living donor transplantation options, there are not just clinical and psychological factors to review, ethical considerations must be carefully scrutinized as well. During this webinar, we will dive deeper into the unique ethical concerns that arise with living donation ultimately influencing organ procurement and allocation, regardless of the organ transplanted.

Objectives:
At the end of the webinar, participants should be able to:
• Discuss the commonly employed ethical principles of Beneficence, Non-Maleficence, and Respect for Autonomy and Justice, frequently employed to provide guidance resolving challenging ethical problems in Living Donor Transplantation.
• Identify the unique ethical issues that influence organ procurement and allocation in Living Donor Transplantation.
• Compare and contrast the ethical concerns associated with living donation in kidney and uterine transplantation.
• Recognize the ethical concerns related to the Paired Kidney Exchange, Kidney Voucher Programs Directed vs. Directed Donation, Public Solicitation for Organs, and Payment for Live Donation.
