

DCDD Heart Recovery: Achieving the Impossible Through Innovative Perfusion Technologies

When:

Tuesday, March 31, 2020
2-3pm ET / 11am-12pm PT

Speaker(s):

Andrew S. Mullins, MBA, FACHE
Chief Operating Officer
Lifeline of Ohio

Jessica Demchak, BSN, RN, CPTC

Asst. Director Clinical and
Transplant Center Relations
LiveOnNY

Amy L. Friedman, MD, FACS

Executive Vice President/
Chief Medical Officer
LiveOnNY

Target Audience:

Administrators • Coordinators •
Physicians • Nurses • Surgeons •
Managers • Quality Improvement •
Social Workers • Other Donation and
Transplantation Professionals

Purpose:

With many Organ Procurement Organizations (OPOs) facing an increase in the number of Donation after Circulatory Determination of Death (DCDD) cases yearly, the opportunity to save lives has grown significantly, especially with the evolution of DCDD organ recovery practices. In this course we will examine the importance of expanding the pool of available hearts through DCDD. Continued advancements in perfusion technologies demonstrate what was once considered impossible is here in the present and being performed successfully around the country!

Objectives:

At the end of the webinar, participants should be able to:

- Apply methodologies learned to successfully facilitate DCDD heart recoveries.
- Summarize the additional needs of DCDD heart procurement cases.
- Identify the continued advancements of DCDD heart procurement.
- Discuss the ethical considerations associated with DCDD heart recoveries.
- List the programs actively pursuing DCDD Heart procurements.
