

Medical Marijuana and CBD Oil Use Pre and Post-Transplant

When:

Thursday, September 24, 2020
3-4pm ET / 12pm-1pm PT

Speaker(s):

Larry Allen, MD, MHS

Professor, Department of Medicine
Kenneth Poirier, Endowed Chair in
Medicine
Associate Division Head for Clinical Affairs,
Division of Cardiology
Medical Director, Advanced Heart Failure
University of Colorado, School of Medicine

Robert Page, PharmD

Professor, Department
of Clinical Pharmacology
University of Colorado, Denver

Target Audience:

Administrators • Coordinators • Physicians
• Nurses • Surgeons • Managers •
Quality Improvement • Social Workers
• Other Donation and Transplantation
Professionals

Register at OrganDonationAlliance.org/webinar-series

Continuing Education Credits

The Organ Donation and Transplantation Alliance (The Alliance) offers 1 **Category 1 CEPTC credit** from the American Board for Transplant Certification.

This program has been approved by the Organ Donation and Transplantation Alliance. Provider approved by the California Board of Registered Nursing, Provider #17117, for 1.0 **Contact Hour**.

Purpose:

Use of marijuana and the varied forms of cannabis is steadily on the rise in the US as more states move to legalize the substance for both medicinal and recreational purposes. Transplant programs across the country also have a varied approach regarding pre and post-transplant use, as clear guidelines are lacking. Research into the effects of THC has been limited by its illegality at the federal level. Drug interactions warrant further evaluation and study. This review offers insight into the pre and post-transplant approach to marijuana and CBD oil use, drug interactions, and a review of proposed potential guidelines.

Objectives:

At the end of the webinar, participants should be able to:

- Describe the current use of marijuana, CBD, and THC derivatives, their effects, and potential risks and benefits.
- Identify mechanism of action and potential drug interactions.
- Outline potential guidelines for use of marijuana and CBD oil in the pre and post-transplant population.

Credit for OnDemand Recording

OnDemand CEPTC and nursing credits are available after watching the OnDemand recording and completing the evaluation process on the OnDemand site. Credits are available for a duration of 12 months from the date of the webinar.

Live Webinar Cost

\$80 per webinar connection. \$10 late fee applied to registrations received less than 3 days in advance.

Cancellation Policy

Cancellations must be submitted at least 5 business days prior to webinar, and are subject to a \$10 nonrefundable processing fee. Inside of 5 days, all attendance costs are nonrefundable
